

BEOSYSTEM 4

The integrator for your home cinema experience

CREATE YOUR OWN HOME CINEMA

BeoSystem 4 is the video engine taking customised cinematic entertainment to a new level optimised for a central installation that may include advanced sound setups and home-automation systems. Connect a screen or projector of your choice and you are ready for the big experience. BeoSystem 4 is more than a cinematic entertainment hub - it's an integrated component in the Bang & Olufsen BeoLink experience
